LFD: Conviction Rate

Measurement Method: The number of convictions divided by the number of cases that closed after court disposition for a given month
Why Measure?   To eliminate potential arson areas and investigate incendiary fires to apprehend and convict those responsible for such incidents
What is our goal?   Increase the conviction rate
How are we doing?   YTD Goal = 75%; YTD Average = 92%; MTD = 100%

	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Average	Median	Standard Deviation	Totals
